

Trinity-Pawling School

Payment Plans 2020-2021

Trinity-Pawling School is pleased to offer families three payment plan options as well as two full-pay options for the 2020-2021 school year through Smart Tuition. With any of these plans, a family may choose to be billed on either the 1st or the 15th of the month. The payment options are as follows:

Full Pay July – Full payment is due July 2020

Full Pay September – Full payment is due September 2020

Trinity-Pawling will absorb the \$50 Administrative Fee charged by Smart Tuition for all families that enroll in either of the full-pay plans above.

2 payments: 70% July, 30% December (70/30 Plan) * – This plan spreads the balance into two payments, with 70% due in July and the remaining 30% due in December

Payments July through January (Payments through January) * – This plan spreads the balance evenly across 7 payment months beginning in July and ending in January

Payments May through February (Payments through February) * – This plan spreads the balance evenly across 10 payment months beginning in May and ending in February

There are no finance charges associated with any of these payment plans. Fees are only assessed on late payments or payments that failed processing. Smart Tuition also charges a 2.85% convenience fee for credit card payments.

Please note that if you are enrolling less than 11 days before the start of a billing cycle, your first payment will be moved to the next month, thus reducing the number of payments and increasing the monthly payment amount. For example, if you attempt to enroll in “Payments May through February” with a due date of May 15, you must make this selection prior to May 4, otherwise your plan will default to 9 payments beginning in June and ending in February.

If you have any questions or need further clarification on any of these payment options, please contact Kasey Diotte in the Student Accounts Office at 845-855-4815 or kdiotte@trinitypawling.org.

** Offered to domestic students only*
